

JASON CRABTREE, Full Stack Developer based in Auckland, New Zealand

PROFESSIONAL SUMMARY

Full Stack Developer with 3 years of professional experience building front-end applications, APIs, and CMS websites seeking opportunities building Full Stack Web Apps with React & TypeScript

TECHNOLOGIES and LANGUAGES

- **Languages:** JavaScript, TypeScript, React, HTML, CSS, GraphQL, HubL, NodeJS
- **Technologies:** Git, CI/CD, AWS Lambda, API Design, Tailwind, CSS-in-JS, Design Systems

PROFESSIONAL EXPERIENCE

Front End Developer, Hype & Dexter, Auckland, NZ

May 2021 - Present

Built and deployed dynamic web applications and websites for business clients in NZ & Australia with the HubSpot CRM & CMS platform. Built 2 custom CRM extensions for HubSpot using React

- Built a React App using HubSpot's extension system and Google Autocomplete APIs to search for address details and populate React Hooks and a user-editable form. Upon user confirmation, the form uses an AWS Lambda API function to update data in the CRM database
- Built 4 front-end web applications using JavaScript, TypeScript, serverless APIs, GraphQL, HTML & CSS. Each application displayed dynamic, filtered data fetched from the client's unique HubSpot database via API, restricted access based on user authentication, and provided secure APIs to create, read, update and delete data inside HubSpot's CRM database
- Built 8 CMS-based websites as Lead Developer, and contributed to 4 other websites in a team of 4 developers. Live Projects: Comms Council, Integration Glue, Australian Water Association, CGProperty, Ozwater, ClearPoint, DBVisit, Figured, Eftpos NZ, Coronation, EnergySmart
- Built a new project template (v1), used for all future web projects (~28) by a 5-developer team
